Dear Colleagues,

we cordially invite you to the 1st interdisciplinary master-class in minimal invasive pelvic surgery in Vienna. In current complex medicine, subspecialization has become mainstream and various disciplines offer surgical treatment for numerous diseases such as incontinence and pelvic organ prolapse. With our interdisciplinary cadaver hands-on workshop for surgeons and gynecologists we intend to offer you not only improvement of your personal skills, but also a broader look at what is state-of the art in other specialties.

Our ICS approved course may encourage you to become a true sparring partner for your clinical colleagues and may impact treatment decision-making in a multidisciplinary setting for the benefit of patients with pelvic floor disorders.

Stefan Riss

Nikolaus Veit-Rubin

Programme

8.00 Uhr
Welcome
Heinz Kölbl and Bela Teleky

1st theoretical session

8.15 – 8.35 am
Sacropexy „in a nutshell“
Heinrich Husslein and Nikolaus Veit-Rubin

8.35 – 8.55 am
Rectopexy „in a nutshell“
Mhairi Collie and Stefan Riss

1st practical hands-on session

9.00 – 11.30 am
Laparoscopic ventral mesh rectopexy
Laparoscopic sacropexy

In between coffee and cake
